

New Sunnysoft Backup Manager finally released

Version 4.0 of Sunnysoft Backup Manager is the latest release of this highly popular backup software. Unequalled features for best ever backup performance, new logo and great graphics are among significant changes this version contains.

Prague, 13th November 2006 - **Backup Manager 4.0** is a professional tool with friendly user interface. New updated graphics were introduced for better user experience while adding new functions with focus on high security of your data in the first place.

Sunnysoft Backup Manager, made to suit all Microsoft Mobile platforms, has gained wide popularity among users all over the world while being continuously improved since the first version was launched in 2001.

Among our corporate clients who appreciate functionality and safety of this backup tool are major market players, e.g ALTANA Pharma AG, sanofi-aventis, ViewSonic and they confirm its qualities by making it part of their complete solutions. Also individual customers using Sunnysoft Backup Manager appreciate the security Backup Manager provides.

Long term experience with Microsoft Mobile platform as well as constant monitoring of our customers needs and market trends are firm basis for constat improvements and the whole development process.

“ We have always tried to deliver solution that is easy to use with all features for top data security and believe to have delivered excellent backup tool”, says Ing.Jaroslav Prchal, Sunnysoft Software Development Division Director.
